- The Best Overall Value Around

FEATURES OF A-SMART® PREMIER™ ALUMINUM CART

- ALUMINUM Carts are 45% lighter than Steel
- Full Extension Ball Bearing Drawer Slides
  Ensures that your drawers will open and close smoothly every time.
- Quality Aluminum Construction
  One-piece outer shell construction providing you with added strength and stability. Locking components consist of zinc plated and galvanized parts.
- Double Side-Wall Construction
  Armstrong’s A-SMART® Carts offer you the added protection of our double side-wall construction. The outer wall adds an extra layer of protection to ensure that your drawers, attached to the inner wall, will always slide smoothly.
- Two Interchangeable Locking Systems
- Contour-Fit Plastic Top
- Customize Your Locking Configuration
  Lock individual drawers, double lock drawers, use multiple types of locks on the same cart.
- Contour-Fit Plastic Top
- Four Vertical Aluminum Corner Mounting Tracks
  For easy accessory attachment (eliminates the need for holes).
- Stabilizing Frame With Bumper
  Casters are moved out from underneath to the outside of the cart. This extra wide base provides your cart with added stability.
- 18 Colors Available
  Allows you flexibility in your carts appearance. Choose colors to specify department or function, or even use multiple colors on the same cart to differentiate drawers.
- Highest Quality Swivel Casters (two locking, one tracking)
  Quiet, durable, German-made casters. Smoother, easier maneuvering.

A-SMART® Carts Are Made In The USA
A-SMART® Setting The Standard

Breakaway Locking Cart

- Breakaway Security ABL Series
- Soft-grip Handles
- Ball Bearing Drawer Slides
- Double Side-wall Construction
- Drawer weight capacity (all drawer sizes): 50 lbs.
- Stabilizing Frame with Bumper prevents injuries. Casters are moved from under the cart to outside its perimeter. This extra-wide base provides your cart with added stability.

NEW Touchpad Locking Cart

- Key override comes standard on Touchpad Security ATE Series
- Look for the Armstrong A-SMART® label on every cart. It stands for quality.
- Manufactured to ISO 9001:2008 certified standards.

Key Locking Cart

- Key-locking Security Series
- Look for the Armstrong A-SMART® label on every cart. It stands for quality.
- Manufactured to ISO 9001:2008 certified standards.

A-SMART® Standard Features:

- Ball bearing drawer slides
- High-quality swivel casters (two locking, one tracking)
- Caster Colors
- Double Side-wall construction (see right)
- Soft-grip handles
- Stabilizing frame with bumper
- 18 Colors
- Durable powder paint
- All carts are latex free

Double Side-Wall Construction

Armstrong’s A-SMART® Carts offer you the added protection of our double side-wall construction. The outer wall adds an extra layer of protection to ensure that your drawers, attached to the inner wall, will always slide smoothly.
Take The Strain Off Your Back. Think LIGHT.

Breakaway Locking Bar
- Security Locking Bar
- PBL Series
- Slide-thru Side Shelf
- Weight cap. 35 lbs.
- Three Adjustable Accessory Panels
- Stabilizing Frame with Bumper prevents injuries. Casters are moved from under the cart to outside its perimeter. This extra-wide base provides your cart with added stability (casters and bumpers are moved further away from the base on the drawer side to balance the weight of opened drawers).

Key Locking Bar
- Has all the same features as the breakaway locking cart. Security Locking Bar
- PKL Series

Customize your locking configuration; lock individual drawers, double-lock drawers, use multiple types of locks on the same cart.

See the Advantages of A-SMART® PREMIER™ Aluminum Carts
- Lightweight, aluminum construction
- Two interchangeable locking systems
- Four vertical Aluminum corner mounting tracks for easy accessory attachment
- Slide-thru side shelf
- Contour-fit plastic top
- High-quality swivel casters (two locking, one tracking)
- Stabilizing frame with bumper
- Double side-wall construction
- Soft-grip handles
- 18 colors
- Durable powder paint
- Ball bearing drawer slides
- All carts are latex free

Double Side-Wall Construction
Armstrong’s A-SMART® Carts offer you the added protection of our double side-wall construction. The outer wall adds an extra layer of protection to ensure that your drawers, attached to the inner wall, will always slide smoothly.
A-SMART® Standard Steel Cart Features

How to CUSTOMIZE An A-SMART® Standard Steel Cart:

1. CHOOSE FRAME SIZE & DRAWER CONFIGURATION
What kind of locking system do you need? How much drawer space do you want?

Wireless Auto-Locking Cart

WEL-Color-30-RP 6-Drawer 30" Wireless Auto-Locking Cart

Cart Features:
- Overall cart dimensions: 48.05"H x 25.20"D x 34.45"W
- Weight: 130 lbs.
- All the quality features of an Aluminum Premier Cart (see page 3)

Electronic Features include:
- LCD keypad display (shows date, time of day, current battery life, and programmable menu driven display system that prompts you to each additional command)
- Integrated 802.11g/802.11n wireless capabilities
- 5,000 user codes possible *
- Supervisor code for all programming
- User code for normal, daily use
- Manual or automatic locking
- Battery operated (6 "D" cell batteries)

Auto-lock features include:
- Programmable auto re-lock warning with the ability to extend the open time *- Set a time interval to warn you that the cart is going to lock. When the warning happens, with a simple press of a button, you can choose to keep the cart open
- Time of day relock *- Set the cart to lock at a specific time of day.
- User specific relock *- The cart can be set to a default auto-lock time. This setting allows a specific user to set their own auto-lock time interval to differ from the default.
- Ability to program actual clock at keypad *
- Ability to limit auto-lock programming to Supervisor Code only *- Restrict users from manipulating the auto-lock settings.

*Please note for the Armstrong PEL and WEL carts, we suggest using alcohol only for cleaning the electronic keypad surface. Please completely dry keypad and surrounding area after alcohol application.

Not Sold Or Serviced Outside The Continental USA.

MORE INFORMATION, SEE PAGES 8-9
CONTROLED SUBSTANCE DRAWER

Factory Installed Options

WEL-Color-30CS-RP 6-Drawer 30" Wireless Auto-Locking Cart with Controlled Substance Drawer

Incorporates all of the WEL-Color-30-RP features in addition to a Controlled Substance Drawer

Controlled Substance Drawer:
- Top 3" drawer to be a dual credential Controlled Substance drawer.
- First credential can be either a proximity badge or a pin code, and the second credential is assigned as a pin code.
- Controlled Substance drawer can be locked manually or will auto-relock at the same time interval set for the main cart auto-lock
- Controlled Substance drawer alarm can be set to alarm (audio and visual) when the drawer is left open and/or alarm for an unauthorized entry
- Additional CS drawer key override

Other Factory Installed Options

Readers can not be retrofitted on existing carts.

WEL-PR Proximity Reader

The WEL-PR Proximity Reader will read most low frequency HID® Prox Cards (125 kHz).

WEL-PRI iCLASS® Reader

Not compatible with iCLASS Seos® or iCLASS® Elite cards. Contactless smart card read-only reader. Reads identification only from iCLASS® cards.

WEL-PRI-SE iCLASS® SE Reader

Reads iCLASS Seos®, iCLASS® SE, standard iCLASS®, MIFARE®, and MIFARE DESFire® cards

PEL-PC HID® Prox Card

PEL-PS Proximity Card Sticker

*Please note for the Armstrong PEL and WEL carts, we suggest using alcohol only for cleaning the electronic keypad surface. Please completely dry keypad and surrounding area after alcohol application.

For optimal performance, be sure to check batteries every 6 months.

Not Sold Or Serviced Outside The Continental USA.
Network Software

WEL-SW Network Software
- Operates on 802.11g/802.11n frequencies (at designated check-in intervals)
- Comes with (1) client access license and (1) server license
*Please call customer service for a complete list of requirements

WEL-SWC Additional Single Client Access License

Windows Based
The Network Software allows the administrator to communicate with the Wireless Carts through the facility’s 802.11g/802.11n network. As users and settings change, all of the changes can be made by the administrator from the comfort of their desk. As each Wireless Cart checks into the network at the designated check-in intervals, all information will be automatically updated at each and every cart.

Many configurable options including:
- Add, edit, view, and delete users
- Control of cart settings (ex: auto-lock defaults, alarm set-up, keypress volume level, etc.)
- View audit trails which include activity as to when the cart (and CS drawer when applicable) is open, locked, key override activity and alarms
- Email & SMS (Short Message Service) Alert allows for text message, fax, and voice notification system for alarms and low battery notification with provider
- Time interval for PC/WEL cart updating frequency
- eReport notification allows system to automatically send activity reports on a daily, weekly, or monthly basis

It is recommended that your Armstrong Wireless Carts are configured using PSK (pre-shared key).

*Customer is responsible for installation. Before purchasing software, it is imperative to contact your IT department concerning installation.
Added Security At An Affordable Price . . .

Aluminum Auto-Locking Carts

PEL-Color-30 6-Drawer 30" Auto-Locking Cart
PEL-Color-24 5-Drawer 24" Auto-Locking Cart

Features:
• Keyless Entry
• 18 colors available
• Lightweight aluminum construction
• Master code for all programming
• Access code for normal, daily use
• Up to 250 user codes possible
• Manual or automatic locking
• Auto-Lock Timer can be set from 1 to 998 minutes, or it can be shut off so that the cart never auto-locks
• Auto-Lock Timer programming can be limited to master code only
• Battery operated; never needs to be plugged into an outlet
• "Low Battery" indicator light
• Manual key override for emergency access
• All the quality features of an Aluminum Premier™ Cart (except Slide-Thru Side Shelf)

For optional software, see page 11.

Not Sold Or Serviced Outside The Continental USA.

For optimal performance, be sure to check batteries every 6 months.

DIMENSIONS:

PEL-Color-30
Overall: 46.05"H x 25.20"D x 34.45"W (includes bumper, handles, and casters).
Drawer size: 17 1/16"D x 22 1/4"W.
Drawer: 30" total drawer height.
Drawer heights: 3"H (3), 6"H (2), 9"H (1).
Weight: 102 lbs.

PEL-Color-24
Overall: 39.55"H x 25.20"D x 34.45"W (includes bumper, handles, and casters).
Drawer size: 17 1/16"D x 22 1/4"W.
Drawer config.: 24" total drawer height.
Drawer heights: 3"H (3), 6"H (1), 9"H (1).
Weight: 88 lbs.

*Please note for the Armstrong PEL and WEL carts, we suggest using alcohol only for cleaning the electronic keypad surface. Please completely dry keypad and surrounding area after alcohol application.

A representative sample of this Auto-Locking Cart was tested to comply with FCC Part 15.
Manufactured to ISO 9001:2008 certified standards.
Proximity Reader and Software
AUTO-LOCKING/PROXIMITY READER

. . . With Optional Proximity Reader.

Think

Optional Factory Installed Proximity Reader

PEL-PR Proximity Reader
PEL-PC HID® Prox Card
PEL-PS Proximity Card Sticker
(makes non-compatible prox cards compatible)

Simply wave the card in front of the reader to open. Lock the cart by pressing the lock button or set the Auto-Lock Timer for anywhere from 1 to 998 minutes. The Proximity Reader will read most low frequency HID® Prox Cards (125 kHz).

The Proximity Reader is a factory installed option on the Auto-Locking Carts only. This upgrade must be noted at the time of purchase. The Proximity Reader can not be retrofitted on existing carts. Electronic capabilities include all the features of the Auto-Locking Carts.

NOTE: If you wish to use your current HID® cards, or purchase new cards or stickers, each card must be made available to be programmed individually into each cart.

For optimal performance, be sure to check batteries every 6 months.

*Please note for the Armstrong PEL and WEL carts, we suggest using alcohol only for the electronic keypad surface. Please completely dry keypad and surrounding area after alcohol application.

Auto-Locking Cart Software

Access Rights

Access Log

User Editor

PEL-SW Auto-Locking Cart Software*

Software is Windows™ based and requires a USB connection. It allows you to add, edit, view, and delete users, supervisors, and specific carts (see screenshot examples to the left). The access log can display the time of entry by each assigned user. You may also create user groups, and restrict users by specified times of the day or days of the week.

*Customer is responsible for installation. Before purchasing software, it is imperative to contact your IT department concerning installation.

Takes two Accessory Panels to mount to a Premier Cart. Two ASH-2 ScopeSafes can be mounted to one side of a cart. Not compatible with Mini or Narrow Carts. Please note: ASH-2 and ASH-4 will not hold colonoscopes.
Spacesavers

That Give You The Added Benefit Of Controlled Security

Aluminum 24" Auto-Locking Mini Cart
(with Optional Factory Installed Proximity Reader)
AMC-4Color 5-Drawer 24" Auto-Locking Mini Cart
PEL-PR Optional Proximity Reader

Overall dimensions: 34.60"H x 20.70"D x 21.40"W.

Features:
- Keyless Entry
- 11 colors available
- Lightweight aluminum construction
- Master code for all programming
- Access code for normal, daily use
- Up to 250 user codes possible
- Manual or automatic locking
- Auto-Lock Timer can be set from 1 to 998 minutes, or it can be shut off so that the cart never auto-locks
- Battery operated; never needs to be plugged into an outlet
- "Low Battery" indicator light
- Manual key override for emergency access

Simply wave the card in front of the reader to open. Lock the cart by pressing the lock button or set the Auto-Lock Timer for anywhere from 1 to 998 minutes. The Proximity Reader will read most low frequency HID® Prox Cards (125 kHz).

*Please note for the Armstrong PEL and WEL carts, we suggest using alcohol only for the electronic keypad surface. Please completely dry keypad and surrounding area after alcohol application.

Aluminum 30" Auto-Locking Narrow Cart
(with Optional Factory Installed Proximity Reader)
AMC-6Color Six-Drawer 30" Auto-Locking Narrow Cart
PEL-PR Optional Proximity Reader

Overall: 43.40"H x 25.40"D x 25.30"W (includes bumper and casters).

Optional Factory Installed Proximity Reader
PEL-PR Proximity Reader
PEL-PC HID® Prox Card
PEL-PS Proximity Card Sticker
(makes non-compatible prox cards compatible)

The Proximity Reader is a factory installed option on the Auto-Locking Carts only. This upgrade must be noted at the time of purchase. The Proximity Reader can not be retrofitted on existing carts. Electronic capabilities include all the features of the Auto-Locking Carts.

NOTE: If you wish to use your current HID® cards, or purchase new cards or stickers, each card must be made available to be programmed individually into each cart.

Auto-Locking Cart Software, see page 11.

Broselow® Pediatric Resuscitation System

AE-4700 Broselow® Pediatric Resuscitation System, $1,950.00
Includes twenty-eight size-specific procedural modules in seven pouches, flying carpet, Broselow® Pediatric Emergency Tape, and all other equipment shown at left. All contained in a heavy-duty ALS equipment organizer.

The Broselow® Pediatric Resuscitation System is approved for the PALS education program. For children 3 to 36 kg.

NEW Broselow® Pediatric Emergency Tape “2017 Edition” mLs units are back!

AE-4800 Broselow® Pediatric Emergency Tape, 5/pkg., $120.00
The 2017 version of the Broselow Reference Tape will be compliant with the 2015 PALS Standards
- Pre-calculated doses in milligrams, as well as all doses in pre-calculated mL, making the entire process error free by removing the need for any calculations.
- The new tape will accommodate for obesity by allowing for a habitus adjustment if deemed appropriate to the tape weight estimation.

1. Measure
Measure the child with the Broselow® Tape. This gives you an accurate weight estimate, equipment sizes, and drug dosages.

2. Treat
Reach into the bag for exactly the right equipment for I.V., intubation, O₂ delivery, or intraosseous access. There’s no guessing.

AE-4875 Broselow® Pediatric Resuscitation Medication/Infusion Guide, $210.00
This Resuscitation/Infusion Guide is designed to provide you a quick reference to common resuscitation I.V. push drugs and vasoactive infusion drugs. The guide is sectioned off in colors that correspond with the Broselow® Tape. The guide is also a solution for those who are trying to address The Joint Commission mandate to use standard concentration drugs for infusions and eliminate the use of “Rule of 6” methods of calculating infusions. The front section provides precalculated milliliter amounts of the most common I.V. push drugs for resuscitation. The back section provides infusion rates based on standard concentrations of common vasoactive medications. This Guide acts to further enhance the Broselow Tape. The Broselow® Pediatric Emergency System helps to reduce cognitive overload sometimes associated with pediatric resuscitations, as well as reduces the potential for medication mistakes due to calculation errors.

STOCK YOUR CART
Fill the drawers with the Broselow® Pediatric Resuscitation System, size-specific pediatric equipment for a complete resuscitation system.

AE-4712 Procedural Modules, $950.00
A complete set of twenty-eight modules for the seven Broselow® Color Packs or the Broselow® ColorCode™ Cart.

AE-4703 Equipment Pack, $675.00
Contains all the equipment that comes in the original Broselow® bag: two disposable manual resuscitators, four cuff masks, three disposable blood pressure cuffs, one gauge, two Magill forceps, and two Vital View IP™ LED fiber optic laryngoscope handles.
Use in conjunction with your
Broselow® Pediatric Resuscitation System.

*Aluminum Cart Features:*
- Ball bearing drawer slides
- Slide-thru side shelf
- Plastic top
- Soft-grip handles (2)
- Accessory panels (3)
- Stabilizing frame with bumper
- Locking casters (2)
- Swivel caster
- Tracking caster
- Breakaway locking bar (length of bar is equal to total drawer space)
- Aluminum mounting tracks

Use OPTIONAL 3" drawer locks so that only the accessed drawers need restocking.

PBL-PC-9 shown with OPTIONAL Accessory Package PC-9E:
Includes AOB-1 Oxygen Tank Bracket, ASU-1 Suction Unit Holder, PIV-1 IV Pole, PCB-1 Cardiac Board (not shown), PBR-3 (8) 3" Breakaway Locking Bar, PBR-6 (1) 6" Breakaway Locking Bar, and APS-5 Plastic Seals. Also shown, AE-4800 Broselow® Pediatric Emergency Tape (sold separately).

PBL-PC-9 BASIC A-SMART® Premier™ Broselow® ColorCode™ Cart (pictured left)
Includes Nine-Drawer A-SMART Premier Breakaway Lock Cart (30" total drawer space), slide-thru side shelf, 30" locking bar, stabilizing frame/bumper system, seamless plastic top, soft-grip push handles, three accessory attachment panels, and all-swivel casters (two locking and one tracking).

PBL-PC-9A COMPLETE A-SMART Premier™ Broselow® ColorCode Cart System (not shown)
System includes PBL-PC-9 Basic ColorCode Cart, as well as AE-4712 Broselow® Procedural Modules, AE-4703 Broselow® Equipment Pack, and a Broselow® Pediatric Emergency Tape (see page 36).

PBR-3 Three-inch Breakaway Locking Bar, $45.00
PBR-6 Six-inch Breakaway Locking Bar, $45.00
Alternative locking options help simplify inventory or limit access to sensitive materials. See page 38 for more locking options.

Don’t waste money checking crash cart drawers that haven’t even been opened. With A-SMART® Premier™ Carts, individual drawer seals can be arranged so that only the accessed drawers need to be checked for inventory, a small investment that pays off with every use.

- Double lock medication drawers
- Improve equipment security
- Ready for changing needs

When carts are shared by departments or personnel, A-SMART Premier’s locking options allow each to be locked with a separate key. Never wonder about who else has access to your equipment.

Maybe you don’t need this kind of flexibility now, but you might later. With A-SMART Premier, you can update your locking system at any time. Need to change a mobile workstation into a crash cart? No problem. Need to add a key lock to an existing cart? Done. Only A-SMART Premier offers you that kind of flexibility.

Locks may be placed on either corner glide for flexible security. Double locking drawers can help control inventory and access.

Breakaway Locking Bars
Mix lock sizes and types for precise inventory control.

800/323-4220 • FAX: 847/913-0138
ClearView Security™ Drug Box and Shelf

ACV-1EL Electronic Push-Button ClearView Security Drug Box with Key Override (manual locking), $450.00
CVS-1 ClearView Shelf, $80.00
ACV-1T ClearView Blue Tray, $19.00

The ClearView provides a great way to secure your medications, small equipment, patients’ personal valuables, RSI equipment, and so much more. The ClearView also allows for a clear view of your inventory and also allows for anesthesia cases to be set up in advance while still keeping instruments/drugs secure. The ClearView can be mounted to a wall, in a patient’s room, or even on an A-SMART® Cart.

Features:
- Supervisor code for all programming
- User code for daily use (19 user codes available)
- Manual key override for emergency access
- Codes must be 4-8 digits in length
- Natural HDPE cabinet with clear PVC door
- Corrosion-resistant
- Uses Alkaline batteries

Dimensions: 7\(\frac{1}{2}\)"W x 14"D x 7\(\frac{3}{8}\)"H
Weight: 5 lbs

NOTE: No auto-locking features (control knob must be turned manually to lock and unlock).

To clean, apply non-acid based cleaner to a clean cotton cloth, do not spray directly on lock. Wipe down keypad and its respective housing surfaces of excess cleaner.

For optimal performance, it is recommended the batteries be replaced on an annual basis.

Attach the ClearView Security Drug Box to an A-SMART® Cart with the CVS-1 ClearView Side Shelf.

Trellis Systems

PTR-1 PREMIER™ Trellis System, $130.00
Adds up to 21" to cart height. Bars are height-adjustable. Includes two uprights and three cross bars.

PTR-5 PREMIER™ Trellis System with Hooks, $170.00 (not pictured)
Adds up to 21" to cart height. Bars are height-adjustable. Includes two uprights and three cross bars. Includes one bar with five hooks in the top rail.

ATR-5N STANDARD Trellis Rail System with Five Hooks, $225.00
Same features as the ATR-6N (see right), but with five hooks on the top rail for hanging supplies.

PHB-1 Additional Hanging Bar for Standard or Premier Trellis Systems, $42.00

ATR-6N STANDARD Trellis Rail System, $185.00
The top bar is 21\(\frac{1}{2}\)" above top of cart.

ATR-9N Wide Cart Trellis Rail System, $195.00
Fits Armstrong’s Wide AKW Series Carts (see page 32).
PSR-1 Tubular Railing, $135.00
Made of electro-polished stainless steel. Extends 3 1/4" above the top of the cart.

APT-2 STANDARD Plastic Top, $65.00
Seamless ABS plastic protects cart metal and provides easy-to-clean work surface. Rounded corners mean infection has nowhere to hide.
Dimensions: 18 1/2" x 27".

APT-5 PREMIER™ Plastic Top, $65.00 (not pictured)
Dimensions: 18 1/2" x 27".

PIV-1 I.V. Pole with Brackets, $105.00
Adjustable: extends 9 1/2" to 39 1/2" above cart top.

ASN-3 STANDARD Side Shelf, $160.00
Simple One-Hand Slow Shelf Retraction
Adds 1.8 square feet of temporary work surface when extended and folds neatly away when not in use.
Dimensions: 17 3/4"D x 14 7/8"W.
Weight Limit: 25 lbs.

PSN-3 PREMIER™ Side Shelf, $160.00
Simple One-Hand Slow Shelf Retraction
Same as ASN-3 (see above).

ACB-1 STANDARD Plastic Cardiac Board with Brackets, $82.00
Heavy-duty plastic board with handle that mounts to back of cart for easy access.
Dimensions: 15.5" x 21.5" x .45".

PCB-1 PREMIER™ Cardiac Board with Brackets, $82.00
Same as ACB-1 (see above).

ASU-1 Suction Unit Holder, $120.00
Dimensions: 10"H x 19"W x 7 3/4"D.

APC-1 Armstrong Wire Punch Card Tray, White, $40.00
Will hold up to thirty punch cards per tray.
Dimensions: 7"H x 14"D x 7"W.
Great for fluid transfer.

ADO-1 Divided Organizer with Lid, $110.00
Dimensions: 2 3/4"H x 7 1/2"W x 7 1/2"D.

All products are compatible with both Standard and Premier™ Carts unless otherwise stated.

To mount accessories to A-SMART® Premier™ Carts, extra accessory panels may be required.
For panels, see page 44

Prices and products are subject to change without notice.

800/323-4220 • FAX: 847/913-0138
ASB-2 Armstrong Security Box, $155.00
Lockable box for portable use or inside a 3”H drawer. Designed to fit beside an AC-670S Drug Tray. The security box measures 11”W x 16”D x 2½”H.

ATD-2 Tape Dispenser for Trellis Rail, $75.00
includes two trellis brackets

ATD-3 Tape Dispenser for Cart Top, $55.00
5 tape brackets, each bracket width is 2½” (not pictured)

AWB-3 Wire Chart Holder*, $35.00
Plastic-coated wire chart holder. 16”L x 4”D x 10”H.

AWB-5 Sloping Wire Basket*, $35.00
Plastic-coated wire basket measures 12” square. 8”H in back, 4”H in front. Sloping top, flat bottom.

AWC-1 Waste Container*, includes 2 ATB-1 brackets, $33.00
13½ quarts. 11½” x 8½” x 12½”.

AWC-2 Fire Retardant Waste Container*, includes 2 ATB-1 brackets, $65.00
14 quarts. 12½” x 8½” x 11½”. (not pictured)

AWC-3 Large Waste Container*, includes 2 ATB-1 brackets, $35.00
28 quarts. 14½” x 10½” x 15” (not pictured)

PHP-1 PREMIER™ Accessory Panels, 2/pkg., $40.00
16” x 4”.

PHP-5 PREMIER™ Accessory Panels for Back of Cart, 2/pkg., $50.00
23” x 4”.

AAB-1 STANDARD Accessory Bar Bracket, $21.00
Required for hanging some accessories on this page. Attaches to two locations on either side of cart. Size: 18” x 1”.
(For A-SMART Premier Carts, substitute PHP-1 Accessory Panel).

PHP-1S PREMIER™ Panel for Cart-mounted DUET, $50.00

AHP-3 STANDARD Panel for Cart-mounted DUET, $40.00 (not pictured)

*Requires AAB-1 or PHP-1 to hang (see above)

All products are compatible with both Standard and Premier™ Carts unless otherwise stated.

Need A Place For Everything?

Modular Drawer Trays

Capacity: 50 lbs.

**PDS-2 PREMIER™** Armstrong Defib One-shelf Unit with Swivel Top, $575.00
Same as ADS-1N *(see above).*
**Tilt Bin Organizers**

Designed for modular assembly, Tilt Bins organize supplies to match your needs. Clear Tilt Bins leave stock visible for quick identification, yet are securely arranged.

Each bin has a slot for labeling and swings open for easy access. Bins are removable for cleaning or refilling.

**NOTE:** A Trellis Rail System or Shelving Unit (except ACD-1N, PCD-1, PLS-1, and ALS-1) is required to mount Tilt Bins to an A-SMART Cart. See page 42 for Trellis Rail Systems and page 46 for Shelving Units.

**ATB-6X Six-Bin Unit, $27.00**
Each bin measures: 4 1/2"H x 5 1/4"D

**ATB-5X Five-Bin Unit, $32.00**
Each bin measures: 6 1/2"H x 5 1/4"D

**ATB-4X Four-Bin Unit, $45.00**
Each bin measures: 8 1/8"H x 6 3/8"D

**ATB-3X Three-Bin Unit, $60.00**
Each bin measures: 9 1/2"H x 7 3/4"D

Each Tilt Bin Organizer has a total width of 22 1/2".

**Tilt Bin Dividers**

Divide each bin into two sections.

**ATB-4D Dividers for ATB-4X, 4/pkg., $15.00**

**ATB-3D Dividers for ATB-3X, 3/pkg., $18.00**

**Need More Organization For All Your Supplies? See pages 48-50.**

**Lockable Tilt Bin Organizers**

NOTE: A Trellis Rail System or Shelving Unit (except ACD-1N, PCD-1, PLS-2, and ALS-2) is required to mount Tilt Bins to an A-SMART Cart. See page 42 for Trellis Rail Systems and page 46 for Shelving Units. Accessories (including Lockable Tilt Bins) can’t be mounted directly above Lockable Tilt Bins.

**Tilt Bin dimensions shown above.**

**Key Lock Tilt Bins**

**ATB-5XK Five-Bin Unit, $115.00**

**ATB-4XK Four-Bin Unit, $135.00**

**ATB-3XK Three-Bin Unit, $145.00**

**Breakaway Lock Tilt Bins**

**ATB-5XL Five-Bin Unit, $75.00**

**ATB-4XL Four-Bin Unit, $90.00**

**ATB-3XL Three-Bin Unit, $100.00**

All products are compatible with both Standard and Premier™ Carts unless otherwise stated.

A combination of bin sizes can be used to accommodate multiple-sized supplies or equipment.

**Prices and products are subject to change without notice.**

- Greystone (AC-989, AC-989A)
- Forest Green (AC-984, AC-984A)
The Duet is perfect for hospital crash carts, patient transport, surgi-center backup, long term care facilities and more.

- An AC suction unit with battery back-up, the Duet provides instant, powerful suction whether or not AC power is available.
- Built-in charger maintains battery and will not overcharge. Keep it plugged in at all times for maximum battery health.
- 3 year battery replacement policy for properly cared for devices!
- When fully charged, the sealed lead acid battery provides 45 minutes +/- 10% of suctioning power, giving you the suction you need for emergency care procedures.

Flat back unit sits conveniently on a cart or shelf. Bracket back unit will attach to the side of the cart or to a wall saving valuable shelf and cart top space.

AC Suction with Battery Back-up

8722L Stubby Handle with LED Light Source
Uses disposable “AA” batteries.

Heine Handles with LED Light Source are not approved for Sterrad® Sterilizers at this time.

Additional Status Indicator Cap Option

The Status Indicator Cap allows the user to see a more specific charge status anytime. When you turn your handle on or remove it from the charger, the LED Indicator on the bottom cap lights up for 10 seconds displaying how much battery time remains. The Indicator also remains lit at any time a laryngoscope blade is attached to the handle.

The Status Indicator Cap comes with the 8721LED Handle. One can also be added to any Heine Adult Lithium Ion LED or 3.5V Lithium Ion Halogen Handle (special Lithium Ion battery required). Call Customer Service for details.

8726 NT 300 Charger

The NT 300 Charger offers an easy-to-see visual indicator on your handles charging status. The entire collar of the NT 300 is brightly illuminated. When you place your handle into the well to be charged, the light ring will pulse, indicating your handle is being charged. Once your handle is fully charged, the light rings stay brightly lit for 4 hours indicating the full charge. This unit prevents over charging the battery and helps to guarantee extended battery life. The NT 300 is the only charger that gives you this immediate visual clue as to where your handles stand in the charging process.

The NT 300 fully charges a handle with a dead battery in a maximum of 4 hours and is compatible with all Heine rechargeable laryngoscope handles.

NEW HEINE EasyClean LED Laryngoscope Handle
8721ECL Heine EasyClean LED Laryngoscope Handle, CALL FOR PRICING

The HEINE EasyClean LED Laryngoscope Handle was developed to allow even simpler, faster and safer hygienic reprocessing of the handle – no complex disassembling and assembling of batteries and light unit. This saves the technical service personnel a great deal of time, and reduces the training and maintenance effort.

- Non-slip “Wave Design” provides a more secure grip and allows for wipe disinfected after use
- 100% waterproof: in the case of immersion disinfection ('High-Level Disinfection') or low temperature sterilization processes (STERRAD®, STERIS®), neither the batteries nor the LED light unit need to be removed

- No removal of the light unit required for use in autoclaves, just batteries
- Maximum brightness: 3 x brighter than conventional halogen light, 4,000 lux (20 lm) at a distance of 20 mm from the blade tip
- Authentic color rendering and homogeneous illumination
- Typically 10 hours of operating time (in continuous operation); battery handle for 2 x C-cells (R14/LR14)
- Fade-out feature: brightness reduces slowly as battery operating time diminishes, for even more efficient battery use
- Compatible with all laryngoscope blades according to ISO 7376 (Green Standard)

8734F Flexible Tips Mac 3 and Mac 4 Blades with Case

*Heine Laryngoscope handles, including all components (excluding LED Light Sources): outer sheath, inner sheath, bulb, alkaline battery/rechargeable battery, and all green ISO marking elements are approved for Sterrad® Sterilizers (NX, 50, 100NX, 100N X, 200).

*Heine Laryngoscope handles manufactured from May 2008 on are compatible with STERRAD NX and 100NX (Date code FM and on). Handles with no date code were manufactured before May 2008 can be upgraded for compatibility with STERRAD NX and 100X sterilizers.
