A-SMART® CARTS + AREA SALES REP = SATISFIED CUSTOMER A-SMART ADVANTAGE

CONSIDER THESE VALUE ADDED SERVICES

Before You Make A Longterm Investment

Armstrong Medical Offers:

- Nationwide coverage
(over 40 Sales Representatives)
- Pre-sale support
- Delivery support
- Post-sale support
- ***The Best Overall Value Around***

FEATURES OF A-SMART® PREMIER™ ALUMINUM CART

- **ALUMINUM Carts are 45% lighter than Steel**
- **Full Extension Ball Bearing Drawer Slides**
Ensures that your drawers will open and close smoothly every time.
- **Quality Aluminum Construction**
One-piece outer shell construction providing you with added strength and stability. Locking components consist of zinc plated and galvanized parts.
- **Double Side-Wall Construction**
Armstrong's A-SMART® Carts offer you the added protection of our double side-wall construction. The outer wall adds an extra layer of protection to ensure that your drawers, attached to the inner wall, will always slide smoothly.
- **Two Interchangeable Locking Systems**
- **Customize Your Locking Configuration**
Lock individual drawers, double lock drawers, use multiple types of locks on the same cart.
- **Slide-Thru Side Shelf**
- **Contour-Fit Plastic Top**
- **Four Vertical Aluminum Corner Mounting Tracks**
For easy accessory attachment (eliminates the need for holes).
- **Stabilizing Frame With Bumper**
Casters are moved out from underneath to the outside of the cart. This extra wide base provides your cart with added stability.
- **18 Colors Available**
Allows you flexibility in your carts appearance. Choose colors to specify department or function, or even use multiple colors on the same cart to differentiate drawers.
- **Highest Quality Swivel Casters (two locking, one tracking)**
Quiet, durable, German-made casters. Smoother, easier maneuvering.

High Security Cart With Wireless Management

The Armstrong Wireless Auto-Locking Cart offers added security with several programmable auto-lock features. Additional security options include badge access, dual-locking controlled substance drawer with audible alarm, and software audit trail reports for accountability. The LCD display provides the cart status information and allows for on-screen programming. With the integrated 802.11g/802.11n wireless capabilities, managing the carts and users (*up to 5,000*) can be administered remotely in only minutes.

Armstrong Medical has 8 years of experience selling this cart to hundreds of hospitals in the USA.

Wireless Auto-Locking Cart

WEL-Color-30-RP 6-Drawer 30" Wireless Auto-Locking Cart

Cart Features:

- Overall cart dimensions: 48.05"H x 25.20"D x 34.45"W
- Weight: 130 lbs.
- All the quality features of an Aluminum Premier Cart (see page 3)

Electronic Features include:

- LCD keypad display (shows date, time of day, current battery life, and programmable menu driven display system that prompts you to each additional command)
- Integrated 802.11g/802.11n wireless capabilities
- 5,000 user codes possible*
- Supervisor code for all programming
- User code for normal, daily use
- Manual or automatic locking
- Battery operated (6 "D" cell batteries)

Auto-lock features include:

- Programmable auto re-lock warning with the ability to extend the open time* - Set a time interval to warn you that the cart is going to lock. When the warning happens, with a simple press of a button, you can choose to keep the cart open
- Time of day relock* - Set the cart to lock at a specific time of day.
- User specific relock* - The cart can be set to a default auto-lock time. This setting allows a specific user to set their own auto-lock time interval to differ from the default.
- Ability to program actual clock at keypad*
- Ability to limit auto-lock programming to Supervisor Code only* - Restrict users from manipulating the auto-lock settings.

Not Sold Or Serviced Outside The Continental USA.

CONTROLLED SUBSTANCE DRAWER

Get added security for controlled substances with our CS drawer. User-friendly LCD screen allows for easy navigation.

Factory Installed Options

WEL-Color-30CS-RP 6-Drawer 30" Wireless Auto-Locking Cart with Controlled Substance Drawer

Incorporates all of the WEL-Color-30-RP features in addition to a Controlled Substance Drawer

Controlled Substance Drawer:

- Top 3" drawer to be a dual credential Controlled Substance drawer.
- First credential can be either a proximity badge or a pin code, and the second credential is assigned as a pin code.
- Controlled Substance drawer can be locked manually or will auto-relock at the same time interval set for the main cart auto-lock
- Controlled Substance drawer alarm can be set to alarm (audio and visual) when the drawer is left open and/or alarm for an unauthorized entry
- Additional CS drawer key override

Other Factory Installed Options

Readers can not be retrofitted on existing carts.

WEL-PR Proximity Reader

The WEL-PR Proximity Reader will read most low frequency HID® Prox Cards (125 kHz).

WEL-PRI iCLASS® Reader

Not compatible with iCLASS Seos® or iCLASS® Elite cards.

Contactless smart card read-only reader. Reads identification only from iCLASS® cards.

WEL-PRI-SE iCLASS® SE Reader

Reads iCLASS Seos®, iCLASS® SE, standard iCLASS®, MIFARE®, and MIFARE DESFire® cards.

PEL-PC HID® Prox Card

PEL-PS Proximity Card Sticker

(makes non-compatible prox cards compatible)

Simply wave the card in front of the reader to open.

***Please note for the Armstrong PEL and WEL carts, we suggest using alcohol only for cleaning the electronic keypad surface. Please completely dry keypad and surrounding area after alcohol application.**

Accountability & Wireless Management

Network Software

WEL-SW Network Software

- Operates on 802.11g/802.11n frequencies (at designated check-in intervals)
- Comes with (1) client access license and (1) server license

*Please call customer service for a complete list of requirements

WEL-SWC Additional Single Client Access License

Windows Based

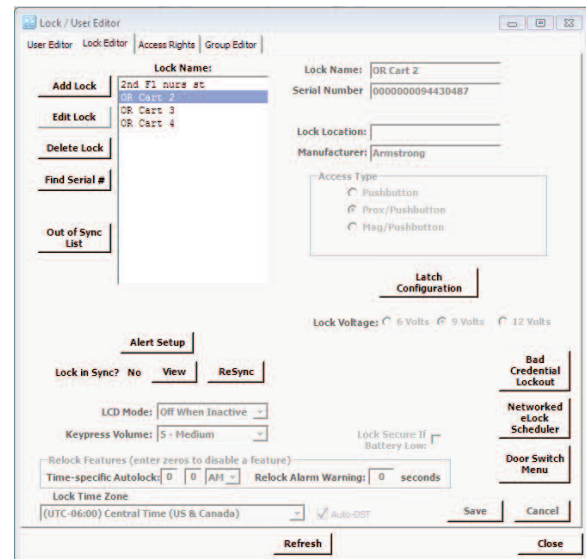

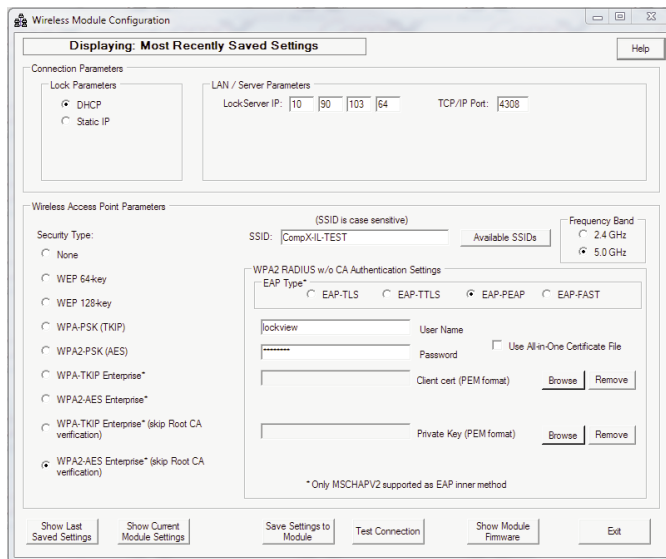

The Network Software allows the administrator to communicate with the Wireless Carts through the facility's 802.11g/802.11n network. As users and settings change, all of the changes can be made by the administrator from the comfort of their desk. As each Wireless Cart checks into the network at the designated check-in intervals, all information will be automatically updated at each and every cart.

Many configurable options including:

- Add, edit, view, and delete users
- Control of cart settings (ex: auto-lock defaults, alarm set-up, keypress volume level, etc.)
- View audit trails which include activity as to when the cart (and CS drawer when applicable) is open, locked, key override activity and alarms
- Email & SMS (Short Message Service) Alert allows for text message, fax, and voice notification system for alarms and low battery notification with provider
- Time interval for PC/WEL cart updating frequency
- eReport notification allows system to automatically send activity reports on a daily, weekly, or monthly basis

It is recommended that your Armstrong Wireless Carts are configured using PSK (pre-shared key).

****Customer is responsible for installation. Before purchasing software, it is imperative to contact your IT department concerning installation.***

That Give You The Added Benefit Of Controlled Security

Aluminum 24" Auto-Locking Mini Cart

(with Optional Factory Installed Proximity Reader)

AMC-4Color 5-Drawer 24" Auto-Locking Mini Cart

PEL-PR Optional Proximity Reader

Overall: 34.60"H x 20.70"D x 21.40"W.

Features:

- Keyless Entry
- 11 colors available
- Lightweight aluminum construction
- Master code for all programming
- Access code for normal, daily use
- Up to 250 user codes possible
- Manual or automatic locking
- Auto-Lock Timer can be set from 1 to 998 minutes, or it can be shut off so that the cart never auto-locks

- Battery operated; never needs to be plugged into an outlet
- "Low Battery" indicator light
- Manual key override for emergency access

Simply wave the card in front of the reader to open. Lock the cart by pressing the lock button or set the Auto-Lock Timer for anywhere from 1 to 998 minutes. The Proximity Reader will read most low frequency HID® Prox Cards (125 kHz).

***Please note for the Armstrong PEL and WEL carts, we suggest using alcohol only for cleaning the electronic keypad surface. Please completely dry keypad and surrounding area after alcohol application.**

Broselow® Pediatric Resuscitation System

Broselow® Pediatric Resuscitation System

Broselow® Pediatric Resuscitation System

AE-4700 Broselow® Pediatric Resuscitation System, \$1,950.00

Includes twenty-eight size-specific procedural modules in seven pouches, flying carpet, Broselow® Pediatric Emergency Tape, and all other equipment shown at left. All contained in a heavy-duty ALS equipment organizer.

The Broselow® Pediatric Resuscitation System is approved for the PALS education program. For children 3 to 36 kg.

Broselow® Pediatric Emergency Tape “2017 Edition” mL units are back!

AE-4800 Broselow® Pediatric Emergency Tape, 5/pkg., \$120.00

The 2017 version of the Broselow Reference Tape will be compliant with the 2015 PALS Standards

- Pre-calculated doses in milligrams, as well as all doses in pre-calculated ml, making the entire process error free by removing the need for any calculations.
- The new tape will accommodate for obesity by allowing for a habitus adjustment if deemed appropriate to the tape weight estimation.

1. Measure

Measure the child with the Broselow® Tape. This gives you an accurate weight estimate, equipment sizes, and drug dosages.

2. Treat

Reach into the bag for exactly the right equipment for I.V., intubation, O₂ delivery, or intraosseous access. There's no guessing.

Broselow® Pediatric Resuscitation Medication/Infusion Guide “2017 Edition”

AE-4875 Broselow® Pediatric Resuscitation Medication/Infusion Guide, \$210.00

This Resuscitation/Infusion Guide is designed to provide you a quick reference to common resuscitation I.V. push drugs and vasoactive infusion drugs. The guide is sectioned off in colors that correspond with the Broselow® Tape. The guide is also a solution for those who are trying to address The Joint Commission mandate to use standard concentration drugs for infusions and eliminate the use of “Rule of 6” methods of calculating infusions. The front section provides precalculated

milliliter amounts of the most common I.V. push drugs for resuscitation. The back section provides infusion rates based on standard concentrations of common vasoactive medications. This Guide acts to further enhance the Broselow Tape. The Broselow® Pediatric Emergency System helps to reduce cognitive overload sometimes associated with pediatric resuscitations, as well as reduces the potential for medication mistakes due to calculation errors.

STOCK YOUR CART

Fill the drawers with the Broselow® Pediatric Resuscitation System, size-specific pediatric equipment for a complete resuscitation system.

AE-4712 Procedural Modules, \$975.00

A complete set of twenty-eight modules for the seven Broselow® Color Packs or the Broselow® ColorCode™ Cart.

Modules for Intraosseous Access, O₂ Delivery, Intubation, and I.V. Delivery.

AE-4703 Equipment Pack, \$695.00

Contains all the equipment that comes in the original Broselow® bag: two disposable manual resuscitators, four cuff masks, three disposable blood pressure cuffs, one gauge, two Magill forceps, and two Vital View II™ LED fiber optic laryngoscope handles.

Premier™ Aluminum Broselow® ColorCode™ Cart

BREAKAWAY LOCKING
Not MRI Compatible

*Use in conjunction with your
Broselow® Pediatric Resuscitation System.*

Aluminum Cart Features:

- Ball bearing drawer slides
- Slide-thru side shelf
- Plastic top
- Soft-grip handles (2)
- Accessory panels (3)
- Stabilizing frame with bumper
- Locking casters (2)
- Swivel caster
- Tracking caster
- Breakaway locking bar (length of bar is equal to total drawer space)
- Aluminum mounting tracks

PBR-3 Three-inch Breakaway Locking Bar, \$45.00

PBR-6 Six-inch Breakaway Locking Bar, \$45.00

Alternative locking options help simplify inventory or limit access to sensitive materials. See page 40 for more locking options.

PBL-PC-9

Use OPTIONAL 3" drawer locks so that only the accessed drawers need restocking.

PBL-PC-9 shown with OPTIONAL Accessory Package PC-9E:

Includes AOB-1 Oxygen Tank Bracket, ASU-1 Suction Unit Holder, PIV-1 IV Pole, PCB-1 Cardiac Board (not shown), PBR-3 (8) 3" Breakaway Locking Bar, PBR-6 (1) 6" Breakaway Locking Bar, and APS-5 Plastic Seals. Also shown, AE-4800 Broselow® Pediatric Emergency Tape (sold separately).

PBL-PC-9 BASIC A-SMART® Premier™ Broselow® ColorCode™ Cart (pictured left)

PBL-PC-9A COMPLETE A-SMART Premier™ Broselow® ColorCode™ Cart System (not shown)

System includes **PBL-PC-9** Basic ColorCode Cart, as well as **AE-4712** Broselow® Procedural Modules, **AE-4703** Broselow® Equipment Pack, and a Broselow® Pediatric Emergency Tape (see page 38).

Premier™ Aluminum Locking Bars

Restock Only The Accessed Drawers. Save Money. Save Time.

Don't waste money checking crash cart drawers that haven't even been opened. With A-SMART® Premier™ Carts, individual drawer seals can be arranged so that only the accessed drawers need to be checked for inventory, a small investment that pays off with every use.

- Double lock medication drawers
- Improve equipment security
- Ready for changing needs

When carts are shared by departments or personnel, A-SMART Premier's locking options allow each to be locked with a

separate key. Never wonder about who else has access to your equipment.

Maybe you don't need this kind of flexibility now, but you might later. With A-SMART Premier, you can update your locking system at any time. Need to change a mobile workstation into a crash cart? No problem. Need to add a key lock to an existing cart? Done. Only A-SMART Premier offers you that kind of flexibility.

Locks may be placed on either corner glide for flexible security. **Double locking** drawers can help control inventory and access.

Breakaway Locking Bars

Auto-Locking Storage Cabinets

*In-Wall Auto-Locking
Storage Cabinet*

*On-Wall Auto-Locking
Storage Cabinet*

NEW Auto-Locking In-Room Storage Cabinets *call for more information*

These Auto-Locking Storage Cabinets are perfect for extra security of items inside patients' rooms or nurses stations. With this cabinet, you get all the great locking features of our Auto-Locking Carts. Choose from in-wall or on-wall cabinets. Cabinets are made of 18 gauge cold rolled steel with 16 gauge aluminum doors. Both models come with two separate storage areas, each with its own individual auto-lock and key override. Customized dimensions and colors are available. Cabinets shown are approximately 28.44"H x 3.83"D x 22.60"W. Call customer service for more details.

- Minimum order of 25
- Master code for all programming
- Access code for normal, daily use
- Up to 250 user codes possible
- Manual or automatic locking

- Auto-Lock Timer can be set from 1 to 998 minutes, or it can be shut off so that the cabinet never auto-locks
- Auto-Lock Timer programming can be limited to master code only
- Battery operated; never needs to be plugged into an outlet
- "Low Battery" indicator light
- Manual key override for emergency access

***Please note: we suggest using alcohol only for cleaning the electronic keypad surface. Please completely dry keypad and surrounding area after alcohol application.**

Electronic Push-Button ClearView™ Security Drugbox

see page 44

Security Box and Trellis Systems

ClearView Security™ Drug Box and Shelf

ACV-1EL Electronic Push-Button ClearView Security Drug Box with Key Override (*manual locking*), \$450.00

CVS-1 ClearView Shelf, \$85.00

ACV-1T ClearView Blue Tray, \$19.00

The ClearView provides a great way to secure your medications, small equipment, patients' personal valuables, RSI equipment, and so much more. The ClearView also allows for a clear view of your inventory and also allows for anesthesia cases to be set up in advance while still keeping instruments/drugs secure. The ClearView can be mounted to a wall, in a patient's room, or even on an A-SMART® Cart.

Features:

- Supervisor code for all programming
- User code for daily use (19 user codes available)
- Manual key override for emergency access
- Codes must be 4-8 digits in length
- Natural HDPE cabinet with clear PVC door
- Corrosion-resistant
- Uses Alkaline batteries

Dimensions: 7¹/₂"W x 14"D x 7³/₈"H

Weight: 5 lbs

NOTE: No auto-locking features (control knob must be turned manually to lock and unlock).

To clean, apply non-acid based cleaner to a clean cotton cloth, do not spray directly on lock. Wipe down keypad and its respective housing surfaces of excess cleaner.

For optimal performance, it is recommended the batteries be replaced on an annual basis.

Attach the ClearView Security Drug Box to an A-SMART® Cart with the CVS-1 ClearView Side Shelf.

Trellis Systems

PTR-1 PREMIER™ Trellis System, \$140.00

Adds up to 21" to cart height. Bars are height-adjustable. Includes two uprights and three cross bars.

PTR-5 PREMIER™ Trellis System with Hooks, \$180.00 (not pictured)

Adds up to 21" to cart height. Bars are height-adjustable. Includes two uprights and three cross bars. Includes one bar with five hooks in the top rail.

ATR-5N STANDARD Trellis Rail System with Five Hooks, \$240.00

Same features as the ATR-6N (*see right*), but with five hooks on the top rail for hanging supplies.

PHB-1 Additional Hanging Bar for Standard or Premier Trellis Systems, \$45.00

ATR-6N STANDARD Trellis Rail System, \$200.00

The top bar is 21¹/₂" above top of cart.

ATR-9N Wide Cart Trellis Rail System, \$210.00

Tilt Bin Organizers Maximize Storage

Tilt Bins Organizers

Designed for modular assembly, Tilt Bins organize supplies to match your needs. Clear Tilt Bins leave stock visible for quick identification, yet are securely arranged.

Each bin has a slot for labeling and swings open for easy access. Bins are removable for cleaning or refilling.

NOTE: A Trellis Rail System or Shelving Unit (except ACD-1N, PCD-1, PLS-1, and ALS-1) is required to mount Tilt Bins to an A-SMART Cart. See page 44 for Trellis Rail Systems and page 48 for Shelving Units.

ATB-6X Six-Bin Unit, \$30.00

Each bin measures: 4¹/₂"H x 5¹/₄"D

ATB-5X Five-Bin Unit, \$35.00

Each bin measures: 6¹/₂"H x 5¹/₄"D

ATB-4X Four-Bin Unit, \$50.00

Each bin measures: 8¹/₈"H x 6⁵/₈"D

ATB-3X Three-Bin Unit, \$65.00

Each bin measures: 9¹/₂"H x 7³/₄"D

Each Tilt Bin Organizer has a total width of 22¹/₂".

All products are compatible with both Standard and Premier™ Carts unless otherwise stated.

A combination of bin sizes can be used to accommodate multiple-sized supplies or equipment.

**Need More Organization
For All Your Supplies?**
See pages 50-52.

Lockable Tilt Bin Organizers

NOTE: A Trellis Rail System or Shelving Unit (except ACD-1N, PCD-1, PLS-2, and ALS-2) is required to mount Tilt Bins to an A-SMART Cart. See page 44 for Trellis Rail Systems and page 48 for Shelving Units. Accessories (including Lockable Tilt Bins) can't be mounted directly above Lockable Tilt Bins.

Tilt Bin dimensions shown above.

The Duet is perfect for hospital crash carts, patient transport, surgi-center backup, long term care facilities and more.

- An AC suction unit with battery back-up, the Duet provides instant, powerful suction whether or not AC power is available.
- Built-in charger maintains battery and will not overcharge. Keep it plugged in at all times for maximum battery health.
- 3 year battery replacement policy for properly cared for devices!
- When fully charged, the sealed lead acid battery provides 45 minutes +/- 10% of suctioning power, giving you the suction you need for emergency care procedures.
- Battery condition indicator.
- 1200cc Bemis canister included.
- Pump Airflow: Approximately 50 lpm.
- Clinical Airflow: 30+ lpm (achieved at tip of patient tubing).
- Size: 17"L x 9"H x 6"W; weighs 10.5 lbs.
- Battery Type: Sealed lead acid.

Flat back unit sits conveniently on a cart or shelf. Bracket back unit will attach to the side of the cart or to a wall saving valuable shelf and cart top space.

Uses disposable "AA" batteries.

8722LM Stubby Rechargeable Handle with LED Light Source and NiMH Battery (*without charger*)

8722L Stubby Handle with LED Light Source

Uses disposable "AA" batteries.

Introducing the new Heine Laryngoscope Handles with LED Light Source. These LED handles offer illumination that is 3X brighter than a 3.5V Halogen Bulb. LED illumination also allows for significantly longer usage time. Plus, the LED Light Source has a lifespan of 50,000 hours and comes with a 5 year warranty.

Heine Handles with LED Light Source are not approved for Sterrad® Sterilizers at this time.

Additional Status Indicator Cap Option

The Status Indicator Cap allows the user to see a more specific charge status anytime. When you turn your handle on or remove it from the charger, the LED Indicator on the bottom cap lights up for 10 seconds displaying how much battery time remains. The Indicator also remains lit at any time a laryngoscope blade is attached to the handle.

The Status Indicator Cap comes with the 8721LED Handle. One can also be added to any Heine Adult Lithium Ion LED or 3.5V Lithium Ion Halogen Handle (special Lithium Ion battery required). Call Customer Service for details.

8726 NT 300 Charger

The NT 300 Charger offers an easy-to-see visual indicator on your handles charging status. The entire collar of the NT 300 is brightly illuminated. When you place your handle into the well to be charged, the light ring will pulse, indicating your handle is being charged. Once your handle is fully charged, the light rings stay brightly lit for 4 hours indicating the full charge. This unit prevents over charging the battery and helps to guarantee extended battery life. The NT 300 is the only charger that gives you this immediate visual clue as to where your handles stand in the charging process.

The NT 300 fully charges a handle with a dead battery in a maximum of 4 hours and is compatible with all Heine rechargeable laryngoscope handles.

**STERRAD®
Compatible**

Blade not included

NEW HEINE EasyClean LED Laryngoscope Handle *CALL FOR PRICING*

8721ECL Heine Adult EasyClean LED Laryngoscope Handle
8720ECL Heine Pediatric/Slim EasyClean LED Laryngoscope Handle
8722ECL Heine Stubby EasyClean LED Laryngoscope Handle

The HEINE EasyClean LED Laryngoscope Handle was developed to allow even simpler, faster and safer hygienic reprocessing of the handle – no complex disassembling and assembling of batteries and light unit. This saves the technical service personnel a great deal of time, and reduces the training and maintenance effort.

- Non-slip “Wave Design” provides a more secure grip and allows for wipe disinfected after use
- 100 % waterproof: in the case of immersion disinfection (‘High-Level Disinfection’) or low temperature sterilization processes (STERRAD®, STERIS®), neither the batteries nor the LED light unit need to be removed

- No removal of the light unit required for use in autoclaves, just batteries
- Maximum brightness: 3 x brighter than conventional halogen light, 4,000 lux (20 lm) at a distance of 20 mm from the blade tip
- Authentic color rendering and homogeneous illumination
- Typically 10 hours of operating time (in continuous operation); battery handle for 2 x C-cells (R14/LR14)
- Fade-out feature: brightness reduces slowly as battery operating time diminishes, for even more efficient battery use
- Compatible with all laryngoscope blades according to ISO 7376 (Green Standard)

HEINE Classic Fiber Optic Blades *CALL FOR PRICING*

- Large, bright, 4.3mm fiber optic bundle (Macintosh blades only)
- Choice between halogen or LED light sources
- Low maintenance; easy to clean
- Compatible with a variety of high-level disinfection and sterilizing methods - call for IFUs
- Five-year performance guarantee on fiber optic bundle; lifetime warranty against manufacturer’s defect
