A-SMART® CARTS + AREA SALES REP = SATISFIED CUSTOMER A-SMART ADVANTAGE

CONSIDER THESE VALUE ADDED SERVICES

Before You Make A Longterm Investment

Armstrong Medical Offers:

- Nationwide coverage
(over 40 Sales Representatives)
- Pre-sale support
- Delivery support
- Post-sale support
- *The Best Overall Value Around*

FEATURES OF A-SMART® PREMIER™ ALUMINUM CART

- **ALUMINUM** Carts are 45% lighter than Steel
- **Full Extension Ball Bearing Drawer Slides**
Ensures that your drawers will open and close smoothly every time.
- **Quality Aluminum Construction**
One-piece outer shell construction providing you with added strength and stability. Locking components consist of zinc plated and galvanized parts.
- **Double Side-Wall Construction**
Armstrong's A-SMART® Carts offer you the added protection of our double side-wall construction. The outer wall adds an extra layer of protection to ensure that your drawers, attached to the inner wall, will always slide smoothly.
- **Two Interchangeable Locking Systems**
- **Customize Your Locking Configuration**
Lock individual drawers, double lock drawers, use multiple types of locks on the same cart.
- **Slide-Thru Side Shelf**
- **Contour-Fit Plastic Top**
- **Four Vertical Aluminum Corner Mounting Tracks**
For easy accessory attachment (eliminates the need for holes).
- **Stabilizing Frame With Bumper**
Casters are moved out from underneath to the outside of the cart. This extra wide base provides your cart with added stability.
- **18 Colors Available**
Allows you flexibility in your carts appearance. Choose colors to specify department or function, or even use multiple colors on the same cart to differentiate drawers.
- **Highest Quality Swivel Casters (two locking, one tracking)**
Quiet, durable, German-made casters. Smoother, easier maneuvering.

High Security Cart With Wireless Management

The Armstrong Wireless Auto-Locking Cart offers added security with several programmable auto-lock features. Additional security options include badge access, dual-locking controlled substance drawer with audible alarm, and software audit trail reports for accountability. The LCD display provides the cart status information and allows for on-screen programming. With the integrated 802.11g/802.11n wireless capabilities, managing the carts and users (up to 5,000) can be administered remotely in only minutes. **Armstrong Medical has 14 years of experience selling this cart to hundreds of hospitals in the USA.**

Wireless Auto-Locking Cart

Accountability & Wireless Management

Network Software

WEL-SW Network Software

- Operates on 802.11g/802.11n frequencies (at designated check-in intervals)
- Comes with (1) client access license and (1) server license

*Please call customer service for a complete list of requirements

WEL-SWC Additional Single Client Access License

WEL-IT IT Technical Support Agreement, Annual

WEL-HR WEL Prox Reader, Hand-Held

WEL-HRI-SE WEL iCLASS® Reader, Hand-Held

Windows Based

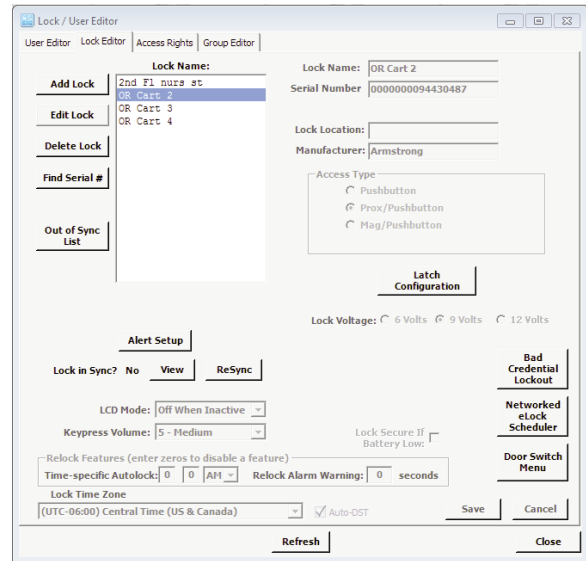

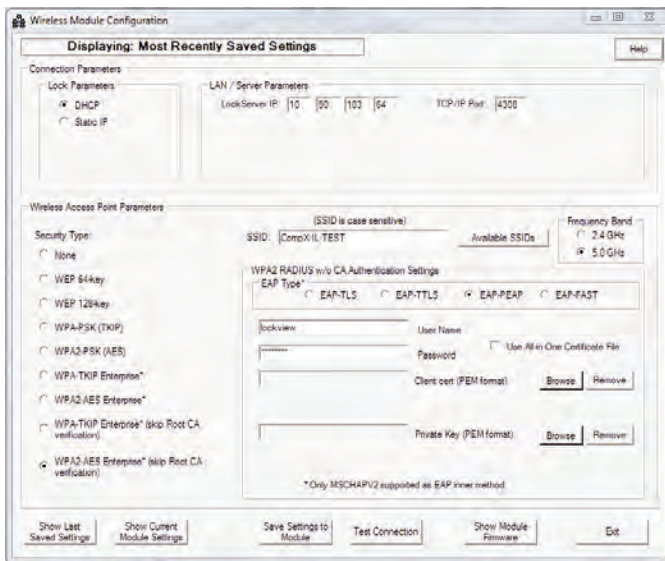

The Network Software allows the administrator to communicate with the Wireless Carts through the facility's 802.11g/802.11n network. As users and settings change, all of the changes can be made by the administrator from the comfort of their desk. As each Wireless Cart checks into the network at the designated check-in intervals, all information will be automatically updated at each and every cart.

Many configurable options including:

- Add, edit, view, and delete users
- Control of cart settings (ex: auto-lock defaults, alarm set-up, keypress volume level, etc.)
- View audit trails which include activity as to when the cart (and CS drawer when applicable) is open, locked, key override activity and alarms
- Email & SMS (Short Message Service) Alert allows for text message, fax, and voice notification system for alarms and low battery notification with provider
- Time interval for PC/WEL cart updating frequency
- eReport notification allows system to automatically send activity reports on a daily, weekly, or monthly basis

It is recommended that your Armstrong Wireless Carts are configured using PSK (pre-shared key).

****Customer is responsible for installation. Before purchasing software, it is imperative to contact your IT department concerning installation.***

User Editor

PEL-SW Auto-Locking Cart Software*

Software is Windows™ based and requires a USB connection. It allows you to add, edit, view, and delete users, supervisors, and specific carts (see screenshot examples to the left). The access log can display the time of entry by each assigned user. You may also create user groups, and restrict users by specified times of the day or days of the week.

**Customer is responsible for installation. Before purchasing software, it is imperative to contact your IT department concerning installation.*

Aluminum 24" Auto-Locking Mini Cart

(with Optional Factory Installed Proximity Reader)

NMC-4Color 5-Drawer 24" Auto-Locking Mini Cart
PEL-PR Optional Proximity Reader

Overall: 34¹⁵/₁₆"H x 20¹¹/₁₆"D x 21³/₈"W.

Drawer heights: 3"H (3), 6"H, 9"H.

Weight: 70 lbs.

Features:

- Keyless Entry
- 11 colors available
- Lightweight aluminum construction
- Master code for all programming
- Access code for normal, daily use
- Up to 250 user codes possible
- Manual or automatic locking
- Auto-Lock Timer can be set from 1 to 998 minutes, or it can be shut off so that the cart never auto-locks
- Battery operated; never needs to be plugged into an outlet

- "Low Battery" indicator light
- Manual key override for emergency access
- **NEW** Aluminum mounting tracks for easy accessory attachment

Simply wave the card in front of the reader to open. Lock the cart by pressing the lock button or set the Auto-Lock Timer for anywhere from 1 to 998 minutes. The Proximity Reader will read most low frequency HID® Prox Cards (125 kHz).

**Please note for the Armstrong PEL and WEL carts, we suggest using alcohol only for cleaning the electronic keypad surface. Please completely dry keypad and surrounding area after alcohol application.*

Broselow® Pediatric Resuscitation System

Broselow® Pediatric Resuscitation System

Broselow® Pediatric Resuscitation System

AE-4700 Broselow® Pediatric Resuscitation System, \$2,350.00

Includes twenty-eight size-specific procedural modules in seven pouches, flying carpet, Broselow® Pediatric Emergency Tape, and all other equipment shown at left. All contained in a heavy-duty ALS equipment organizer.

The Broselow® Pediatric Resuscitation System is approved for the PALS education program. For children 3 to 36 kg.

NEW Broselow® Pediatric Emergency Tape (2025 Edition)

AE-4800 Broselow® Pediatric Emergency Tape, 5/pkg., \$130.00

The 2025 version of the Broselow Reference Tape will be compliant with the most current PALS Standards

- Pre-calculated doses in milligrams, as well as all doses in pre-calculated ml, making the entire process error free by removing the need for any calculations.
- The new tape will accommodate for obesity by allowing for a habitus adjustment if deemed appropriate to the tape weight estimation.

1. Measure

Measure the child with the Broselow® Tape. This gives you an accurate weight estimate, equipment sizes, and drug dosages.

2. Treat

Reach into the bag for exactly the right equipment for I.V., intubation, O₂ delivery, or intraosseous access. There's no guessing.

See Inside Back Cover for more details.

Broselow® Emergency Equipment Organizers

AE-4825 Mini Broselow® Equipment Organizer, \$335.00

Seven empty color-coded bags permanently attached to "Flying Carpet" cloth.

Main bag: 15"L x 10"H x 6 1/2"D.

Pouches: 12"L x 5"H x 2"D

Flying Carpet: 30"L x 12"W

AE-4805 Broselow® Pediatric Emergency Equipment Organizer, \$560.00

Seven empty color-coded bags attached to Velcro® "Flying Carpet" cloth. Includes airway management equipment bag.

Main bag: 18"L x 11 1/2"H x 12 1/2"D.

Airway bag: 14"L x 9"H x 4 1/2"D empty.

Pouches: 14"L x 8"W.

STOCK YOUR CART

Fill the drawers with the Broselow® Pediatric Resuscitation System, size-specific pediatric equipment for a complete resuscitation system.

AE-4712 Procedural Modules, \$1,260.00

A complete set of twenty-eight modules for the seven Broselow® Color Packs or the Broselow® ColorCode™ Cart.

Modules for Intraosseous Access, O₂ Delivery, Intubation, and I.V. Delivery.

AE-4703 Equipment Pack, \$900.00

Contains all the equipment that comes in the original Broselow® bag: two disposable manual resuscitators, four cuff masks, three disposable blood pressure cuffs, one gauge, two Magill forceps, and two Vital View II™ LED fiber optic laryngoscope handles.

Premier™ Aluminum Locking Bars

Restock Only The Accessed Drawers. Save Money. Save Time.

Don't waste money checking crash cart drawers that haven't even been opened. With A-SMART® Premier™ Carts, individual drawer seals can be arranged so that only the accessed drawers need to be checked for inventory, a small investment that pays off with every use.

- Double lock medication drawers
- Improve equipment security
- Ready for changing needs

When carts are shared by departments or personnel, A-SMART Premier's locking options allow each to be locked with a

separate key. Never wonder about who else has access to your equipment.

Maybe you don't need this kind of flexibility now, but you might later. With A-SMART Premier, you can update your locking system at any time. Need to change a mobile workstation into a crash cart? No problem. Need to add a key lock to an existing cart? Done. Only A-SMART Premier offers you that kind of flexibility.

Locks may be placed on either corner glide for flexible security. **Double locking** drawers can help control inventory and access.

Breakaway Locking Bars

Mix lock sizes and types for precise inventory control.

Size	Prod#	Price
3"	PBR-3	\$55.00

Auto-Locking Storage Cabinets

*In-Wall Auto-Locking
Storage Cabinet*

*On-Wall Auto-Locking
Storage Cabinet*

Auto-Locking In-Room Storage Cabinets

call for more information

These Auto-Locking Storage Cabinets are perfect for extra security of items inside patients' rooms or nurses stations. With this cabinet, you get all the great locking features of our Auto-Locking Carts. Choose from in-wall or on-wall cabinets. Cabinets are made of 18 gauge cold rolled steel with 16 gauge aluminum doors. Both models come with two separate storage areas, each with its own individual auto-lock and key override. Customized dimensions and colors are available. Cabinets shown are approximately 28.44"H x 3.83"D x 22.60"W. Call customer service for more details.

- Minimum order of 25
- Master code for all programming
- Access code for normal, daily use
- Up to 250 user codes possible
- Manual or automatic locking

- Auto-Lock Timer can be set from 1 to 998 minutes, or it can be shut off so that the cabinet never auto-locks
- Auto-Lock Timer programming can be limited to master code only
- Battery operated; never needs to be plugged into an outlet
- "Low Battery" indicator light
- Manual key override for emergency access

***Please note: We suggest using alcohol only for cleaning the electronic keypad surface. Please completely dry keypad and surrounding area after alcohol application.**

Electronic Push-Button ClearView™ Security Drugbox

see page 44

Security Box and Trellis Systems

ClearView Security™ Drug Box and Shelf

ACV-1EL Electronic Push-Button ClearView Security Drug Box with Key Override (*manual locking*), \$525.00
CVS-1 ClearView Shelf, \$120.00

The ClearView provides a great way to secure your medications, small equipment, patients' personal valuables, RSI equipment, and so much more. The ClearView also allows for a clear view of your inventory and also allows for anesthesia cases to be set up in advance while still keeping instruments/drugs secure. The ClearView can be mounted to a wall, in a patient's room, or even on an A-SMART® Cart.

Features:

- Supervisor code for all programming
- User code for daily use (19 user codes available)
- Manual key override for emergency access
- Codes must be 4-8 digits in length
- Natural HDPE cabinet with clear PVC door
- Corrosion-resistant
- Uses Alkaline batteries

Dimensions: 7¹/₂"W x 14"D x 7³/₈"H

Weight: 5 lbs

NOTE: No auto-locking features (control knob must be turned manually to lock and unlock).

To clean, apply non-acid based cleaner to a clean cotton cloth, do not spray directly on lock. Wipe down keypad and its respective housing surfaces of excess cleaner.

For optimal performance, it is recommended the batteries be replaced on an annual basis.

Attach the ClearView Security Drug Box to an A-SMART® Cart with the CVS-1 ClearView Side Shelf.

Trellis Systems

PTR-1 PREMIER™ Trellis System, \$210.00

Adds up to 21" to cart height. Bars are height-adjustable. Includes two uprights and three cross bars.

PTR-5 PREMIER™ Trellis System with Hooks, \$278.00 (not pictured)

Adds up to 21" to cart height. Bars are height-adjustable. Includes two uprights and three cross bars. Includes one bar with five hooks in the top rail.

ATR-5N STANDARD Trellis Rail System with Five Hooks, \$325.00

Same features as the ATR-6N (*see right*), but with five hooks on the top rail for hanging supplies.

PHB-1 Additional Hanging Bar for STANDARD or PREMIER™ Trellis Systems, \$55.00

ATR-6N STANDARD Trellis Rail System, \$280.00

The top bar is 21¹/₂" above top of cart.

ATR-9N Wide Cart Trellis Rail System, \$345.00

Fits Armstrong's Wide AKE Series Carts (*see page 34*).

Cart Accessories

Tilt Bin Organizers Maximize Storage

Tilt Bins Organizers

Designed for modular assembly, Tilt Bins organize supplies to match your needs. Clear Tilt Bins leave stock visible for quick identification, yet are securely arranged.

Each bin has a slot for labeling and swings open for easy access. Bins are removable for cleaning or refilling.

NOTE: A Trellis Rail System or Shelving Unit (except ACD-1N, PCD-1, PLS-1, and ALS-1) is required to mount Tilt Bins to an A-SMART Cart. See page 44 for Trellis Rail Systems and page 48 for Shelving Units.

ATB-6X Six-Bin Unit, \$33.00

Each bin measures: 4¹/₂"H x 5¹/₄"D

ATB-5X Five-Bin Unit, \$43.00

Each bin measures: 6¹/₂"H x 5¹/₄"D

ATB-4X Four-Bin Unit, \$63.00

Each bin measures: 8¹/₈"H x 6⁵/₈"D

ATB-3X Three-Bin Unit, \$78.00

Each bin measures: 9¹/₂"H x 7³/₄"D

Each Tilt Bin Organizer has a total width of 22¹/₂".

All products are compatible with both Standard and Premier™ Carts unless otherwise stated.

A combination of bin sizes can be used to accommodate multiple-sized supplies or equipment.

**Need More Organization
For All Your Supplies?**
See pages 50-52.

Lockable Tilt Bin Organizers

NOTE: A Trellis Rail System or Shelving Unit (except ACD-1N, PCD-1, PLS-2, and ALS-2) is required to mount Tilt Bins to an A-SMART Cart. See page 44 for Trellis Rail Systems and page 48 for Shelving Units. *Accessories (including Lockable Tilt Bins) can't be mounted directly above Lockable Tilt Bins.*

AE-6975 DUET™ AC/Battery-Powered Suction Unit with Built-in Automatic Battery Care and Protection

AE-6976 DUET™ AC/Battery-Powered Suction Unit with Retention Bracket (mountable on carts or walls)

The Duet is perfect for hospital crash carts, patient transport, surgi-center backup, long term care facilities and more.

- An AC suction unit with battery backup, the Duet provides instant, powerful suction whether or not AC power is available.
- Built-in charger maintains battery and will not overcharge. Keep it plugged in at all times for maximum battery health.
- 3 year battery replacement policy for properly cared for devices!
- When fully charged, the sealed lead acid battery provides 45 minutes +/-10% of suctioning power, giving you the suction you need for emergency care procedures.
- Battery condition indicator.
- 1200cc Bemis canister included.

AE-6975

- Pump Airflow: Approximately 50 lpm.
- Clinical Airflow: 30+ lpm (achieved at tip of patient tubing).
- Size: 17"L x 9"H x 6"W; weighs 10.5 lbs.
- Battery Type: Sealed lead acid.

Flat back unit sits conveniently on a cart or shelf. Bracket back unit will attach to the side of the cart or to a wall saving valuable shelf and cart top space.

ETL listed, conforms to UL STD 2601-1, 2nd Ed. Conforms to IEC 60601-1 and EN 60601-1-2, and Certified to CAN/CSA STD C22.2 NO. 601.1-M90

Laerdal Suction Unit **CALL FOR PRICING**

AE-7100 Laerdal Suction Unit

AE-7100

- One-hand-grip design
- Minimum suction 80 mmHg; maximum suction 550 mmHg
- Easy to convert between the canister systems
- Bemis High efficiency filter kit
- Bemis HEPA rated bacterial filter with filter efficiency of 99.97% down to 0.3µm
- LSU Reusable aerosol filter filters aerosols down to 0.3µm
- Does not contain latex
- Big vacuum regulator dial
- Suction levels for tracheal suctioning and suctioning of children and infants marked in light blue
- LED display for use day or night
- TEST - Device Diagnostics program
- Approximate noise levels at 80 mmHg of 48 dBA and 500+ mmHg of 56 dBA (free air flow)
- No-tools-necessary field changeable battery
- Rechargeable Battery, NiMH, 12 VDC 2 Ah
- 12V DC Power-cord for connection to vehicle connection
- Weight 4kg (8lbs 13 oz) including battery
- 5 year limited warranty (excluding the canisters, tubing systems and battery)

Anesthesia Chairs

EXTRAORDINARY ERGONOMIC DESIGN

Meets The 10 Most Commonly Recommended Features For An Ergonomic Chair.

Armstrong Anesthesia Chairs Are MADE IN THE USA!

AC-979 Wide Anesthesia Chair,
Greystone, Non-conductive, Vinyl,
\$900.00

AC-979A Wide Anesthesia Chair with
Adjustable Arms, Greystone,
Non-conductive, Vinyl, \$1,025.00

- Wide, non-tilt, contoured seat (21" x 19" x 3")
- Wide seat back (18" x 19")
- Extra-wide wheel base (28" diameter)
- Adjustable wide foot ring (20" diameter)
- 22" to 32" adjustable seat height
- Dual-wheel safety casters prevent chair kick out
- Full lifetime warranty on pneumatic mechanism (13 years on balance of components)

Meets The 8 Most Commonly Recommended Features For An Ergonomic Chair:

1. Adjustable backrest for lumbar support.
2. Pneumatically adjustable height.
3. Five-point base.
4. Casters.
5. Feet flat on the floor or on a foot rest.
6. Seat surface slanted slightly backward. Upholstery slightly porous and of rough texture.
7. Seat front edge padded and rounded.
8. Adjustable armrest. A clearance of at least 30 cm between the undersurface of the operating room table and the top of the chair seat.

When Comfort Is Not Optional

Armstrong Anesthesia Chairs Are MADE IN THE USA!

AC-985 Anesthesia Chair, Black,

Non-conductive, Vinyl, \$875.00

AC-985A Anesthesia Chair with Arms,

Black, Non-conductive, Vinyl, \$1,000.00

Body frame support:

- ✓ Ergonomically designed
- ✓ Balances work posture and weight support
- ✓ Reduces seat slippage
- ✓ Eliminates pressure on the coccyx
- ✓ Adjustable back/lumbar support
(15¹/₂"W x 14¹/₂"H)

Custom fit adjustment:

- ✓ Six-way seat control with high-density, foam seat
(18¹/₂"W x 17"D x 3" Thickness)
- ✓ Free-floating, articulating seat control with more adjustment options
- ✓ Height adjustable seat (22" - 32") and foot ring (20" Diameter)
- ✓ Five-leg, cast aluminum base with 25" leg spread
- ✓ Dual-wheel safety casters prevent chair kick out
- ✓ Optional armrests with width and height adjustment

Long-lasting value:

- ✓ Full lifetime warranty on pneumatic mechanism (13 year on balance of components)
- ✓ Bumper guards to protect against damage to the vinyl upholstery
- ✓ Polished, chrome plating

HEINE Laryngoscopes

STERRAD®
Compatible

Blade not included

HEINE EasyClean LED Laryngoscope Handle **CALL FOR PRICING**

8721ECL Heine Adult EasyClean LED Laryngoscope Handle

8720ECL Heine Pediatric/Slim EasyClean LED Laryngoscope Handle

8722ECL Heine Stubby EasyClean LED Laryngoscope Handle

The ultimate "Green" option to help reduce your carbon footprint. The HEINE EasyClean LED Laryngoscope Handle was developed to allow even simpler, faster and safer hygienic reprocessing of the handle – no complex disassembling and assembling of batteries and light unit. This saves the technical service personnel a great deal of time, and reduces the training and maintenance effort.

- Non-slip "Wave Design" provides a more secure grip and allows for wipe disinfected after use
- 100 % waterproof: in the case of immersion disinfection ('High-Level Disinfection') or low temperature sterilization processes (STERRAD®, STERIS®), neither the batteries nor the LED

light unit need to be removed

- No removal of the light unit required for use in autoclaves, just batteries
- Maximum brightness: 3 x brighter than conventional halogen light, 4,000 lux (20 lm) at a distance of 20 mm from the blade tip
- Authentic color rendering and homogeneous illumination
- Typically 10 hours of operating time (in continuous operation); battery handle for 2 x C-cells (R14/LR14)
- Fade-out feature: brightness reduces slowly as battery operating time diminishes, for even more efficient battery use
- Compatible with all laryngoscope blades according to ISO 7376 (Green Standard)

HEINE Classic Fiber Optic Blades **CALL FOR PRICING**

- Large, bright, 4.3mm fiber optic bundle (Macintosh blades only)
- Choice between halogen or LED light sources
- Low maintenance; easy to clean
- Compatible with a variety of high-level disinfection and sterilizing methods - call for IFUs
- Ten-year performance guarantee on fiber optic bundle; lifetime warranty against manufacturer's defect

Broselow® Pediatric Resuscitation Tape

NEW Broselow® Pediatric Emergency Tape (2025 Edition)

AE-4800 Broselow® Pediatric Emergency Tape, 5/pkg., \$130.00

The Originally Developed Pediatric Emergency Tape.

When time and accuracy are crucial during a pediatric emergency situation, turn to the Broselow® System which is designed with children's care and procedural accuracy in mind. Each color-coded system supplies you with all the medical dosage information (except for infusion drugs) and size-specific equipment you need for your young patients' emergency resuscitation requirements.

QUICK AND SIMPLE

1. Measure

Measure the child with the Broselow® Tape. This gives you an accurate weight estimate, equipment sizes, and drug dosages.

2. Treat

Reach into the bag for exactly the right equipment for I.V., intubation, O₂ delivery, or intraosseous access. There's no guessing.

The 2025 version of the Broselow Reference Tape will be compliant with the most current PALS Standards and will include the following:

- Pre-calculated doses in milligrams, as well as all doses in pre-calculated ml, making the entire process error free by removing the need for any calculations.

- The new tape will accommodate for obesity by allowing for a habitus adjustment if deemed appropriate to the tape weight estimation.
- When used without the habitus adjustment new tape provides an accurate estimate of Ideal Body Weight, over actual body weight, which is preferred for many emergency medications.
- Updated with additional essential medications for both EMS and the ER.
- Contains a separate section, Quick Access Meds, for those medications needed immediately.

Age	Zone	Ideal Weight	HR	RR	SBP
<3 months	Grey	3-5 kg	90-200	40-60	60-94
3-5 months	Pink	6-7 kg	90-190	30-50	70-104

Green	20-30	6-10	1.0-1.5	5

NEW UPDATES

Experience streamlined functionality with our newly updated tape featuring vibrant color zones, reorganized tables, and added quick-reference vitals for faster decision making. Obsolete drugs have been removed, essential updates like 3% Hypertonic Saline added, and critical airway specifications highlighted for universal clarity. Fully aligned with 2025 PALS standards, this version ensures enhanced usability and compliance with the latest clinical guidelines.

- **Updated Guidelines:** Conforms to 2025 PALS standards, aligning with the latest clinical recommendations.
- **Optimized Emergency Data:** Added weights on both sides of the tape, quick-reference vitals on color zones, and modernized ISMP recommendations. Adjusted headers for streamlined resuscitation flow.
- **Refined Design:** Front panel rearrangements, QR Code, "Red to Head" nomenclature, vibrant color zones, and updated AirLife logo with the new version number for 2025 updates.
- **Enhanced Reference Tools:** Ideal Body Weight table now consolidates all information with clear titling and sourcing. Ventilator settings and recommended concentration tables reorganized for better usability.
- **Drug and Equipment Adjustments:** Obsolete drugs removed, newer essentials added, and critical airway device specifications highlighted for universal clarity.
